

MEDIA RELEASE

MSP Engineering is expanding and relocating to new premises

Monday 8th March 2010

MSP Engineering is pleased to announce relocation to new premises in Balcatta at 110 Erindale Road.

MSP's Process Solutions and Mining Services businesses will remain at it's existing premises at 24 Mumford Road, Balcatta.

Mr Tony Sheard, MSP's Chief Financial Officer, said "Due to rapid growth in the business during the later part of 2009, and the recent commencement of MSP Process Solutions and MSP Mining Services, it was identified that the business required additional space and facilities."

"We are extremely pleased with how the office fit-out and relocation progressed, and look forward to having the facilities already in place for further business growth. A new website at www.mspengineering.com.au has also been recently developed that better reflects the range of capabilities, services and products managed by the MSP group" said Tony Sheard.
