

QUALITY STATEMENT

MSP Engineering Pty Ltd is a unique resource development consultancy company who strive to be innovative leaders in our field.

Total customer satisfaction is our key mission with seeking challenging future opportunities for continued business excellence.

Business partnerships are paramount and remaining focused on opportunities to improve these partnerships for mutual satisfaction and benefit is of vital importance.

Our management team is totally committed to our staff and the future growth and viability of our company. Through our staff's understanding, embracing and contributing towards our goals, we will ensure that our client and stakeholders alike benefit from our strong and innovative management practices.

Through our quality management system (QMS), we will regularly review our practices to ensure statutory and regulatory compliance and best industry practices.

MSP will continue to strive for industry excellence, maintain our respected position in the market place and offer a premier standard of service and reliability.

Mr Peter McSweeney
