ENVIRONMENTAL POLICY

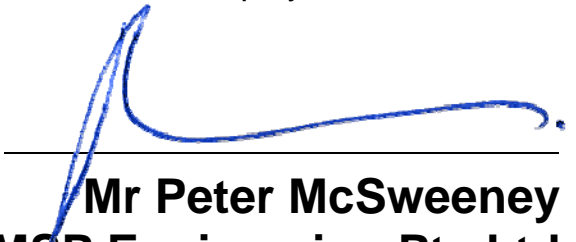

MSP Engineering Pty Ltd is committed to ensuring that all its operations and activities are conducted in a manner that minimises any impact on the environment.

The company recognises that its operations have an environmental impact and has adopted an approach of proactively managing activities and adopting techniques which minimise environmental harm. The company also recognises the rights of others in the environment.

To achieve our commitment MSP Engineering:

- Minimises adverse environmental impacts through the use of integrated management procedures and planning.
- Monitor, review, audit and assess its operations with a view to continual improvement of environmental performance.
- As a minimum, comply with all relevant legislation, regulations and Codes of Practice.
- Implement procedures for establishing and reviewing environmental objectives and targets.
- Recognise the responsibilities of all employees, including contractors, to work in an appropriate manner, and provide training and resources to ensure tasks are properly performed.
-
- Prevent pollution.
- A minimum practical disturbance approach to mining and rehabilitate disturbed areas to a pre-determined land use.
- Communicate with stakeholders about the company environmental performance and has relevant information publicly available.

Commitment to the environment is a team obligation involving co-operation and consultation between employees, contractors and stakeholders.

Mr Peter McSweeney
MSP Engineering Pty Ltd
Managing Director
